

Room sanitizing protocol:

Between Session Protocols/Room sanitizing protocol

1. Therapist removes sheets and towels deposits in the linen bins that are kept outside.
2. All surfaces sanitized with Re-juv-nal. This includes door, door jams, the chair, the clothing hooks, stool, facecradle (pillow maybe wrapped in plastic then face cradle cover and plastic changed between each client), music knobs and light switches. This will be left for 10 minutes (the reaction time for Re-Juv-Nal) then wiped and reapplied and wiped down again.
3. There should be minimal padding on the table and it will be sanitized after each session
4. The carpet will be sprayed with Lysol
5. There will be a cleaning crew to help therapists assure proper room readiness.

Linens used on table

1. Clients will be draped with one set of sheets
2. Towel or 2nd set of sheets used for further cover
3. No blankets used
4. No warming pads used
5. No hot stones, cups or bamboo, hot packs us
